Horizon Residences at Luštica Bay

Where Sky Meets Sea

Introducing Horizon, an exclusive hillside neighbourhood where the beauty of the Adriatic Sea meets the vastness of the sky. Here, every hillside residence is a testament to thoughtful design and boundless natural beauty. Each one is a masterpiece of Mediterranean design, featuring terraces that invite you to linger, pools that beckon for a refreshing dip, and private spaces that offer breathtaking, uninterrupted views of the marina and sea, extending to the horizon.

Life at the Summit

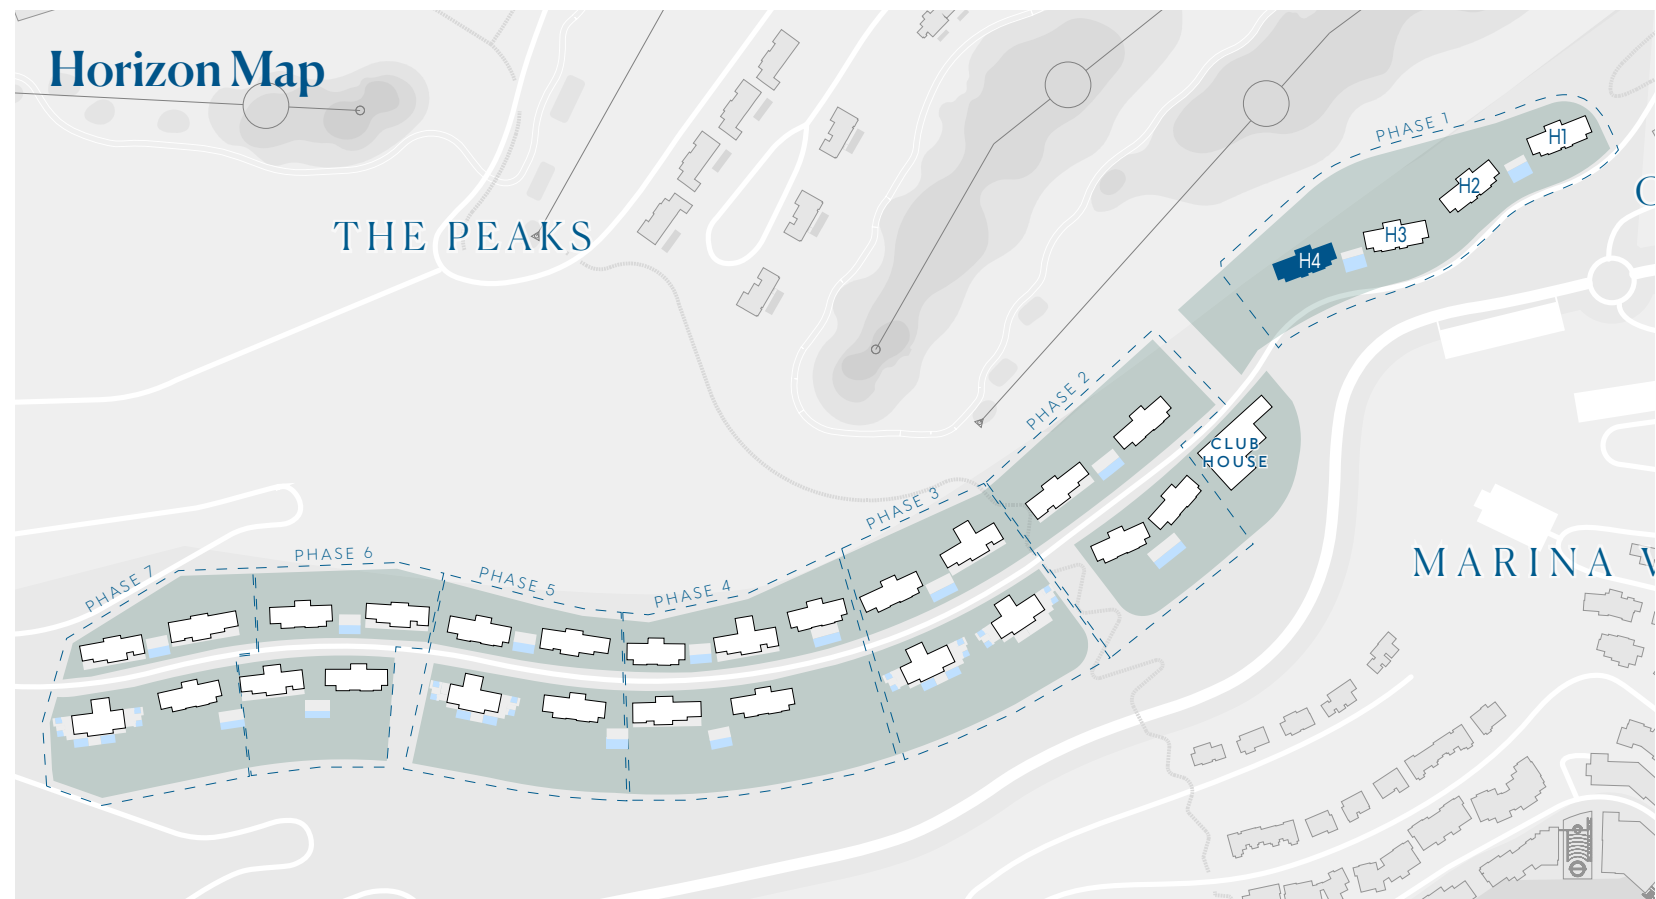

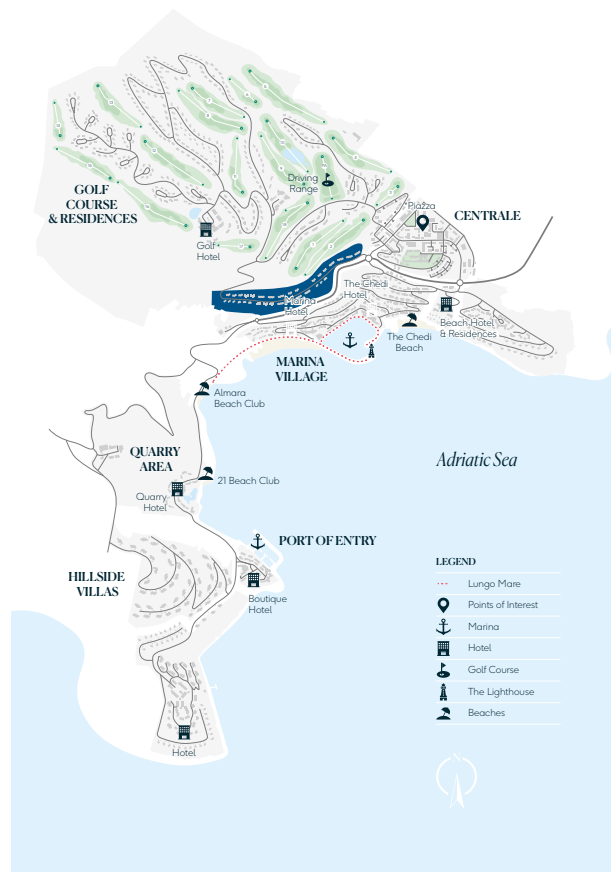

Life at Horizon means enjoying the finest details. Picture homes built from warm Luštica stone, accented with Mediterranean shutters and distinctive roofs. Interiors feature earthy tones that complement the stunning blue views, creating a serene and elegant atmosphere.

Each view has been carefully choreographed and framed by an arched portico or pergola entwined with honeysuckle tendrils. Think artfully tiered pool terraces, lush gardens with olive and lemon trees, and winding staircases overlooking the sea.

The Art of Living

Horizon isn't just about where you live; it's about how you live. Engage in outdoor adventures, find peace in tranquil corners, and enjoy a community that blends modern amenities with traditional charm. From dynamic Luštica Bay activities to serene private moments, Horizon offers a life reimagined.
